To whom it may concern,  
**Redact**

- Product description: pesticide insecticide Cypermethrin
- Product use: for around food areas with no food contact or used outside

**"Passed AsureQuality Assessment for food / beverage /dairy factory processing & storage area with no possible contact with any food, stored packaging or food contact surfaces per localised, e. g. crack & crevice, application or used outside" H4655 with conditions.** This assessment was prepared by Global Proficiency Ltd using HACCP principles to determine equivalence with food standards listed below. See <http://assessedproducts.asurequality.com>. This supports food Risk Management Programmes & other endorsements that may apply to this product include MPI regulated farm dairy approval, MPI dairy factory endorsement, MPI regulated non-dairy animal product approvals, EPA HSNO-OSH-environment approval (& previously AQIS).

**Conditions:**

- Used per instructions, legislation & GMP for processing & storage areas with no possible contact with any food, stored packaging or food contact surfaces per localised, e. g. crack & crevice, application or used outside (category B). Used with an approved pest control programme where applicable.
- The assessment is subject to notification of change and expires on 29/06/2027.
- The full report is attached for supplier review and verification. The assessment is activated by countersigning & inclusion of assessment precautions / assessment statement / MPI dairy precautions statement & this does not allow use of the word approval or of the AsureQuality logo.

Prepared by Global Proficiency for AsureQuality Ltd... *R.G. Hutchinson*

Supplier: *[Signature]* Date: *20 Jul 2022*

**Scope and purpose of the assessment:**

- Asurequality assessment is a non-regulated, voluntary, and evidential certification by the supplier demonstrating equivalence with food safety standards, and also that product instructions address hazards for staff & equipment. The assessment is independently confirmed, without prejudice or guarantee, using information submitted by the supplier or from other sources. Confidentiality of the product formulation is maintained using coded material identifiers in the report, and appendices containing confidential information are provided only to the supplier.
- Scope: NZ checks (FSANZ, US FDA 21 CFR/ NSF, Food Chemicals Codex, EPA NZ, EU, French culinary listings or related data for equivalent safety). NZ background (Animal Products Act, Risk Management Programmes. Detergent & Sanitiser Manufacturer's Code of Practice, Detergent & Sanitiser Standards and Analytical Methods. Quality Manual - Assessment Procedures

**Summary of assessment with risks highlighted:**

- Prior information/ registrations (Regulatory Regulatory HSR100346 HSNO classifications & controls listed. ACVM A011963 for animal health use. NZFSA approved type B non-dairy animal products. AsureQuality assessed type B/C point apply. UN 3082 environmentally hazardous substance, liquid, NOS. PGIII).
- Food safety/toxicity per (1) non-contact using localised crack/ crevice application and care, (2) ingredients references to food/safety listing above, (3) ingredient purity n/a per non-contact except aromatic solvent data recorded, (4) carryover per direct spray falling on food is not allowed & would greatly exceed pesticide MRL).
- QA (unfound unrequired for non-contact).
- QC specs (unfound unrequired for non-contact & micro per fresh preparation of solutions).
- Instructions
  - Label (Redact. Danger keep out of reach of children. Ecotoxic shake well before use. For the control of flies on cattle & horses, lice and ticks on cattle, and ants, cockroaches, fleas, flies, mosquitoes, spiders in domestic, industrial and public health areas. Active ingredient 200g/L Cypermethrin emulsion. Read label before use. Hazard classifications (Acute toxicity oral category 4, Eye irritation category 2, Skin sensitisation cat 1. Reproductive toxicity cat 2. STOT repeat exposure cat 1, Aquatic toxicity (acute/ chronic) cat 1, Hazardous to terrestrial vertebrates and invertebrates). Record keeping ((if 3kg or more is used & likely to enter air or water & leave application area a written record is kept of each application of Redact. Lists (Toxicity Warning (may be harmful & cumulative. Do not inhale vapour or spray mist. Do not eat or drink while using. Remove protective clothing after & washup detail. Contaminated clothing not allowed out of workplace & wash before re-use). Suspected of damaging fertility from repeat oral exposure. May cause organ damage from repeat exposure at high doses. Causes serious eye irritation etc. May cause allergic skin reaction from prolonged or repeat exposure). Ecotoxicity (Care. Toxic to aquatics & details. Hazardous to terrestrial vertebrates and invertebrates & bees - detailed). Handling precautions. Storage. Personal; Protection. Personnel Qualification & Experience. Disposal. Spillage. First Aid, Notice. MPI approved type B non-dairy animal products. AsureQuality no contact with food, stored packaging of food contact surfaces per localised e. g. crack & crevice application - or used outside. Registered to Renovu Tech. HSN O HSR100346, UN 3082 environmentally hazardous substance, liquid, NOS. PGIII). Directions for use - for fly control on horses and cattle (lactating cattle after milking and away from milk) 50 ml/10L, adult cattle
